

Cat Grooming Release:

Because we care about your cats safety and well being, we want to assure you that every effort will be made to make your cats visit as pleasant as possible.

Cats are creatures of habit and when exposed to a new environment can experience elevated stress levels. In the event that your cat becomes too stressed to safely continue with the grooming process, we will stop all procedures and you will be notified immediately.

Additionally if your cat is severely tangled or matted your cat will be shaved in a blade suitable to go underneath the matting, we DO NOT de-mat cats due to injury possibilities. Also, because your cat is matted or tangled it is at a greater risk for injury and stress. There will also be a matting fee added if your cat is matted or severely tangled.

I hereby grant Hound Therapy to obtain any needed veterinary treatment at my own expense for my cat. Also, realizing that cats are at a higher risk for injury and stress, I will NOT hold Hound Therapy or staff responsible for any accidents or injury to my cat.
